Reasons for Allowance

1. Claims 3, and 5-11 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Referring to claim 3, the prior art does not teach or reasonably suggest wherein when occurrence of a failure in the computer system is detected, content of an area in the main storage, which has not been associated with the virtual storage by the address translation table, is stored in a given area in the auxiliary storage.

Referring to claim 5, the prior art does not teach or reasonably suggest a means for transferring content of the virtual-storage area from the main storage to the auxiliary storage according to the address translation table when occurrence of a failure in the computer system is detected in combination with the other limitations of the claim.

Referring to claim 6, the prior art does not teach or reasonably suggest storing the content of the virtual-storage area, which has been updated since the virtual-storage area was allocated to the main storage, in the first auxiliary storage according to the address translation table when occurrence of a failure in the computer system is detected in combination with the other limitations of the claim.

Referring to claim 7, the prior art does not teach or reasonably suggest storing content in each area of the plurality of pieces of virtual storage, which has been updated since the area of the virtual storage was allocated to the main storage, in the first auxiliary storage according to the address translation table when occurrence of a failure in the computer system is detected in combination with the other limitations of the claim.

Art Unit: 2113

Referring to claims 8 and 9, the prior art does not teach or reasonably suggest restoring the address translation table, which has been saved in the first auxiliary storage, in the main storage before switching the first auxiliary storage, which is working, to second auxiliary storage.

Referring to claims 10 and 11, the prior art does not teach or reasonably suggest a processing part to output, when a failure occurs, the information in said main storage among the information in said virtual-storage area to said auxiliary storage to which said information in said main storage is output when the utilization ratio of said main storage becomes high.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
